

The INSTITUTE for BIRD POPULATIONS

POSITION AVAILABLE: MAPS FIELD BIOLOGIST

APPLICATION DEADLINE: Open until filled

The Institute for Bird Populations (IBP) seeks two field biologists to serve as a bird banding biologists under the Monitoring Avian Productivity and Survivorship (MAPS) program at Fort AP Hill, Virginia. The position runs from approximately **May 7 through August 8, 2019**.

Successful applicants should have previous experience with the MAPS protocol, be proficient at Eastern bird identification, and **MUST** have advanced skills in mist-netting, bird banding, and ageing and sexing of birds in the hand. Applicants will be expected to use Peter Pyle's Identification Guide to North American Birds, Part I, to identify plumages and molts of landbirds. Attention to detail, good physical condition, a tolerance of long days that begin before dawn, and the ability to endure sometimes difficult field conditions are required. Applicants must provide their own transportation to the work site at Fort AP Hill, Virginia, but will be provided with a work vehicle once there. Lodging will be provided free of charge. The biologists will be living at or near the army base (lodging details have not been finalized) with other workers, and are expected to spend a minimum of 6 out of every 10 days in the field, contingent upon weather and logistical considerations.

COMPENSATION: These positions are considered independent contractors, not IBP staff. Biologists will receive payment of \$2,500 per month, but no fringe benefits.

TO APPLY:

Submit a cover letter, resume, and contact information for 3 references (all as a single attachment) to:
